#### ENERGY TIPS FROM JIM HULL

"Light zone your home and save  
electricity. Concentrate lighting in  
reading and working areas: where it is  
needed, and for safety -- in stairwells,  
for example. Reduce lighting in other areas  
areas, but avoid sharp contrasts in one  
room.

"Get the most out of the electric lamp  
you use. Light **colored transparent** shades  
spread the light more effectively than  
dark shades."
